Wikimedia Commons has media related to B.M. Sreenivasaiah College of Engineering. BMSCE prides itself on educating students since 1946 in various disciplines and continues to provide world-class education in the years to come with more emphasis on research and development. AAAAA + Estd. Year: 1946 Campus Size: 15 Acres Total Faculty: 406 Total Student Registrations: 5975 BMS College of Engineering offers admission to various undergraduate (BE), further education (M.Tech, MBA, MCA) and Doctorate (Ph.D) courses in various areas. Admission to BE courses is based on KCET , COMEDK exam while for M.Tech admission will be based on GATE, PGGET exam. Detailed admission process to each course is given below. For lower courses (BE):Candidates should qualify one of the entrance tests: Karnataka Common Entrance Test (KCET) Consortium Medical , Engineering and Dental Colleges of Karnataka (COMEDK). Candidates must fill out an electronic application form on the website BMSCE. Admission will be based on the marks scored in KCET/COMEDK surveys, seat allocation, document verification and fee payment. For postgraduate courses (M.Tech/MBA/MCA): For M.Tech, admission will be given to candidates who have a valid GATE/PGGET score. For the MBA, admission will be given to the candidates who qualify one of the entrance tests: KMAT/CMAT/MAT/PGGET. For the MCA, admission will be given to the candidates who qualify one of the entrance tests: KMAT /PGCET. Candidates must fill out an electronic application form on the website of BMSCE. Admission will be based on the marks scored in entrance surveys, seat allocation, document verification and fee payment. For research courses (Ph.D):Candidates must fill out an electronic registration form on the website of the BMS College of Engineering.Admission will be given to the candidates based on letter of purpose, grades scored in 12. BMSCE offers many different facilities to students and faculty. There are hostel facilities for both boys and girls. There is a sports ground where cricket and football can be played. Campus, Wi-Fi is enabled. A health center is also there to accommodate medical emergencies. The library here is one of the best stock in the region. Library: Library has a good collection of books, national and international journals, magazines for students and faculty. Hostel: The College has separate hostels with separate dining area for boys and girls. The internet resort is also available for themSport: Various indoor and outdoor sports facilities such as cricket, basketball, carom, chess, etc are available to students. Counselling centre: BMSCE provides students with counselling facilities in a confidential way for their social, emotional and psychological support apart from academics. Hospital: The university college provides medical facilities to students and staff. Medical dispensary and an ambulance are available for any emergency. Boys Hostel Girls Hostel Gym Library Sports Cafeteria Auditorium Medical / Hospital Wifi IT Infrastructure Laboratories Alumni Associations Shows 448 of 448 Questions 11 Views Hello Aspirant, Hope You Do Well BMSCE is a very good college in Bangalore. The locations are good, but the thing is the companies that visit here are mostly software companies. So if you want to get placements you yourself need to learn coding then think well before joining Hope this helps you all the best! Answer later 21 Views Hello aspirant, Hope you do well Both options you have mentioned are equally good. Artificial intelligence and machine learning are the new branch introduced based on industrial requirements. Information technology is also a good branch where after that you can get into good companies. Until last year AI and ML were made as a course by many Engineering students. Because of THE AI and ML demand a separate branch came into existence this year. So both courses would be equally good bms and it completely depends on your interest. Hope this helps you all the best! Answer later 26 Views I think BMSCE is one of the most rising technical institutes in Bangalore in the field of IT, Computer Science, Artificial Intelligence and Machine Learning next to IISc Bangalore, IIT Bangalore, RVCE and MSRIT. You may prefer B.Tech courses in AL and ML over the CSE branch in lesser-known colleges. There is a lot of scope within AI and Machine Learning and enormous career opportunities. Being located near IT Hubs at Bangalore itself provides impetus for training and location prospects. Most of the top companies such as Microsoft, Intel, Adobe, Cognizant, Infosys, IBM, Airbus, GE, TCS, John Deere, TVS, P&G visits BMSCE specifically for information technology and machine learning roles during campus recruitment. Besides these BMSCE provides a very safe campus culture and peer environment with good infrastructure, faculty and research facilities. Answer later 26 Views Hello! Information technology is more of a code topic rather than theory. While computer science technique deals with theory as well as coding in equal aspects. Location options will be more or less similar to information technology as well as computer science technology. CSE has more scope. And during the termination, a CSE student gets a new thought, whereas for IT students don't get much second thought. All that matters is your skills. Choose wisely, all the best. I hope the answer was helpful. Thank You Answers Later Do you have a question related to BMS College of Engineering, Bangalore ?
